

Contract Development & Controls Updates

★ Important! Contract Agreement Execution

All Transportation Services Contract Agreements must be sent to the CDC Unit for execution. As of November 2020, this is a centralized function in the CDC Unit. No Contract Agreement should be sent to the GMO or Ashley Curtis, Director, for signature. Please contact CDC staff if you have any questions.

★ Important! Contract Numbers Must Follow the Standardized Naming Convention Format

Please refer to **Page 5** of the [Construction Act Guidance Session](#) presentation for the naming convention guidelines, and contact CDC staff if you have any questions.

★ Important! Template for Ariba RFT Part 3 – Drawings and Specifications, Available for Transportation Services Contracts

In compliance with the 2019 Construction Act Amendment, the City has implemented a new Construction Contract Ariba RFT Template, which includes five (5) parts.

Part 3 – Drawings and Specifications must accurately represent the goods and services (including anticipated quantities), required from the Contractor. All information relative to the Contract requirements that could affect a Supplier's decision to bid or pricing, including drawings, specifications and technical requirements, are required to be inserted in Part 3.

Staff responsible for developing contracts are reminded to utilize these templates for construction contracts.

The following templates have been developed and standardized:

- Transportation Services Template for Ariba Tender Part 3 – Drawings and Specifications
- TS O&M Specialized Template for Ariba RFT Part 3

Templates are available on the following TS Webpage:

<http://insideto.toronto.ca/transportation/contracts-procurement/index.htm>

Reminder! Prompt Payment Activity Reporting

Please submit your monthly construction payment activity reports to CDC Unit attention Sachin Hingoo, Project Lead. For further information please reach out to Sachin at sachin.hingoo@toronto.ca.

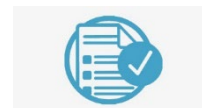

Coming Soon! NCP/DPO Training

CDC has developed a new Standard Operational Procedure (SOP) for Non-Competitive Procurement (NCP) contracts. Training will be delivered soon. Stay tuned for more details.

Coming Soon! Streamlined Contract Approval Process

CDC is currently working on streamlining the Contract Approval process, which includes internal approvals within SAP Ariba and external approvals for e-signatures. More to come, including training and how this will impact your work.

Corporate Compliance Updates

New! The Corporate Compliance Unit has a new generic e-mail box called TS-Compliance@toronto.ca that is currently used for in-taking

any Intranet Site content updates. It will also be used for outgoing communications/requests relating to Freedom of Information Office issues, or other compliance matters.
